

The West End Association Post Office Box 161 Winston-Salem, North Carolina 27102

April 13, 1977

Dear West End Member:

Thank you very much for your response to the call to join with your neighbors and to be active participants in the West End Association. Enclosed is your membership card for the year.

I am also enclosing some more membership forms for you to give to your neighbors. We all think of the West End Association as the oldest and strongest neighborhood association in Winston-Salem, but sometimes such a position of preeminence leads to complacency. A neighborhood such as ours can never afford to be complacent, and a decline in interest in what is happening in the West End will surely be followed by other types of decline. Won't you, then, give one of these forms to your closest neighbors, and encourage them to join us in promoting an active West End Association.

I also enclose a notice of the next general meeting, April 19. It promises to be interesting and informative. As noted in the last issue of the West End News, there will be no general, hand-delivered distribution of notice of this meeting. So, while you're getting your neighbors to join the Association, be sure to tell them about the next meeting, and bring along some of your friends and neighbors when you come.

Again, it's gratifying that you have joined the West End Association, and I look forward to your suggestions, ideas, participation, criticism, and your interest in improving and maintaining the West End as the nice place we all live in.

Sincerely,

Thorns Craven
President
