The 5th annual Take a Kid Mountain Biking Day is October 4th from 11am until 3pm! Kona has decided to join Mock Orange Bikes and will be sending a rep out from Washington state with some bikes, so we'll have a demo happening along side the rest of the festivities. CycleSafe will be back this year with kids' helmets and their passion for making cycling attainable and safe to everyone.

For those of you that aren't familiar with the event, Take a Kid Mountain Biking Day is a day for all of us to pass along our love of riding to the next generation. The Children's Home has agreed to host the event on their grounds again this year. Just head over there at 11am and start riding bikes. People are free to come and go, ride bikes and hang out. Our good friend Jay Doub will be serving lunch. So, if you have kids, bring them out to ride. If you don't have kids, you certainly know at least one kid that would really benefit from the experience. Take the time to give her or him a memory that will last a lifetime. If you can't find a kid, well, come out and join us anyway. We'll be having a grand time.

Take a Kid Mountain Biking Day is sponsored by IMBA and celebrates the life of Jack Doub.

For more info, call us at the shop, 336.722.6678, or email info@mockorangebikes.com.

Birds in the West End

This photo of a young red-tailed hawk was taken from the doorway of our second-floor balcony on September 12th. He sat quietly while we went in and out, got the binoculars, whispered excitedly, and found the camera. He sat while we tool several pictures before lazily taking wing toward the YMCA; his family nest would be at the Children’s Home. We have a 30-foot greet hemlock in our back yard whose top one quarter is bare, seen in the photo. Birds always love perching on its high tip. Recently, while having morning coffee on the balcony, we watched juvenile red-bellied woodpeckers, with zebra stripes and red cap, calling Ma for food, like teenagers do everywhere.

Flickers, with their dappled chests and black front collars, like to sit there and preen. These are just two of many, many species that we see sitting up top of our hemlock. I make a point of this because that leafless branch or bare dogwood in your own yard can be a favorite perch, and will give you a very cleat view of the birds. Phil Dickinson, co-writer of the Tuesday Bird Column in the Winston-Salem Journal, mentioned a recent discussion with his wife over the dead dogwood in their yard; he, of course, wanted it up because it attracted birds and she wanted the ugly thing down. I don’t know what happened to Phil’s Dogwood. I do, however, know we and the birds get much joy from our bare hemlock treetop.
